**Subject:** FW: pdf of report and cover

Dave - as you can see, we (CNS) did not receive the signed version as identified in the PO, however I wanted to send this to you now based on a discussion I had with Mike Runyan stating that you might get in the office later this evening. I will send you the signed version when it comes in tomorrow.

Paul Fleming  
Licensing Manager, Cooper Nuclear Station

> Paul,

> Attached pdf of cover page and report. I did not include the extensive resumes in the pdf. I contacted vendor to clarify that we expect the document to be signed in ink by a PE to certify that the report complies with the purchase order requirements. Tom Smith said he would get the signatures but it would take until tomorrow.
