

**UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
REGION IV  
611 RYAN PLAZA DRIVE, SUITE 400  
ARLINGTON, TEXAS 76011-4005**

July 6, 2006

**SUBJECT:** PUBLIC MEETING WITH ENTERGY OPERATIONS, INC.

**FACILITY:** River Bend Station

**DOCKET:** 50-458

**DATE & TIME:** Thursday, July 20, 2006  
12:30 - 4 p.m. (CDT)

**LOCATION:** U.S. Nuclear Regulatory Commission, Region IV  
Training Conference Room  
611 Ryan Plaza Drive, Suite 400  
Arlington, TX 76011-4005

**PURPOSE:** This meeting is a Regulatory Conference, the purpose of which is to provide the licensee an opportunity to present to the NRC their perspective on the facts and the process used by the NRC to arrive at the preliminary White finding described in NRC Inspection Report 05000458/2006011 (ML061700510). The apparent violation of NRC requirements involved a failure to establish adequate preplanned measures to ensure accurate and timely emergency classification using seismic activity emergency actions levels during periods when seismic monitoring instrumentation was out of service at various times in 2004 and 2005.

**CATEGORY 1:** This is a Category 1 Meeting. The public is invited to observe this meeting and will have one or more opportunities to communicate with the NRC after the business portion, but before the meeting is adjourned.

The NRC provides reasonable accommodation to individuals with disabilities where appropriate. If you need a reasonable accommodation to participate in this meeting, or need this meeting notice or the transcript or other information from the meeting in another format (e.g., braille, large print), please notify the NRC's meeting contact listed below. Determinations on requests for reasonable accommodation will be made on a case-by-case basis.

A telecommunications bridge will be available for the public. The phone number is (800) 952-9677. The callers will then request to be transferred to the bridge for the River Bend Station public meeting.

PARTICIPANTS: NRC

B. Mallett, Regional Administrator
