Dear Dr. Kramer:

I am pleased to inform you that you passed the oral examination held on June 5-7, 2005. The American Board of Radiology grants you its Certificate in Radiation Oncology. This is a ten-year time-limited certificate. The certificate will be sent to the above address in approximately three months. Your name will appear on the certificate as shown above. If you wish your name to appear differently, please notify the Board office within thirty days. Your name and demographic information will be included in a Directory published by the American Board of Medical Specialties. It is your responsibility to notify other local and state or national organizations of your certification.

The American Board of Radiology began issuing ten-year time-limited certificates in Radiation Oncology in 1995. The 24 member boards of the American Board of Medical Specialties (ABMS) have developed programs for Maintenance of Certification (MOC). The ABR-MOC program is designed to assist each diplomate with a ten-year time-limited certificate in fulfilling the requirements as defined by the ABR and ABMS for maintaining certification. The concept of continuous improvement is a significant principle that underpins the ABR-MOC.

With award of this certificate, you have entered into your first ten-year cycle in the ABR-MOC program. You can learn more about it on the ABR website (www.theabr.org). Because MOC is a continuous program over the ten-year cycle, you should be working every year to make progress in the various component areas. The ABR will continue to support you in planning and monitoring your personal progress by communicating with you annually as to the requirements that need your attention. Enclosed is a table which outlines your requirements for Professional Standing, Lifelong Learning and Self-assessment, Practice Performance, and future computer-based examinations. Keep records of your activities until 2007. At that point, the ABR website will be interactive, and you will transfer your records to your personal account. You will receive an annual invoice for \$270.00, which is one-tenth of your total MOC cycle fee. Your first invoice will be sent out in May 2006. Please remember to provide us with your current e-mail and mailing address so that we can communicate with you most efficiently. Your first task is to complete the enclosed MOC data form and return it to the ABR office.

Personally and on behalf of the Board of Trustees of The American Board of Radiology, I wish to congratulate you for this distinguished achievement. You have accomplished one of the most significant milestones in your career.

RE: NOEL KRAMER, D.O.

To Whom It May Concern:

This is a letter of reference for Dr. Noel Kramer, a radiation oncologist. Dr. Kramer served as a radiation oncology resident at Fox Chase Cancer from July 1, 2000 to June 30, 2004. During that time I served as her Attending Physician and Residency Program Director.

Dr. Kramer satisfied all of the requirements for graduation from our Radiation Oncology Residency Program. She is eligible to sit for the Radiation Oncology Board Examination this Fall. During her residency, Dr. Kramer performed a satisfactory number of radiation simulations. She performed more than the minimum required number of brachytherapy procedures as well. During her training, she had direct clinical experience and didactic training in brachytherapy procedures using both low-dose rate and high-dose rate brachytherapy. These procedures involved Iridium 192 and Iodine 125.

If you need any further information, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Gary M. Freedman".
