Abstract: Part 60 requires States and Indian Tribes to submit certain information to the NRC if they request consultation with the NRC staff concerning the review of a potential repository site, or wish to participate in a license application review for a potential repository (other than the Yucca Mountain, Nevada site proposed by the U.S. Department of Energy). Representatives of States or Indian Tribes must submit a statement of their authority to act in such a representative capacity. The information submitted by the States and Indian Tribes is used by the Director of the Office of Nuclear Material Safety and Safeguards as a basis for decisions about the commitment of NRC staff resources to the consultation and participation efforts. As provided in §60.1, the regulations in 10 CFR. Part 60 no longer apply to the licensing of a geologic repository at Yucca Mountain. All of the information collection requirements pertaining to Yucca Mountain were included in 10 CFR Part 63, and were approved by the Office of Management and Budget under control number 3150-0199. The Yucca Mountain site is regulated under 10 CFR Part 63 (66 FR 55792, November 2, 2001).
