Dear Dr. Lodhi:

Subject: License No. 37-28465-01 *03031452*
License Amendment Request - Change in Storage Location

This letter is being submitted to inform the Nuclear Regulatory Commission that Civil & Environmental Consultants, Inc. (CEC) is proposing to change one of the licensed storage locations associated with License No. 37-28465-01. The Indianapolis, Indiana branch of CEC is relocating and will have on-site storage available at the new location. The storage location that CEC would like to have removed from our license is:

Storage USA Unit No. 133
1302 N. Meridian Street
Indianapolis, IN 46204

CEC has reviewed the leak testing results for testing performed during the time period in which nuclear density gauges were stored at this location, and none of the sample activities were reported to have been equal to or exceed 0.005µCi, therefore no additional measurements post gauge relocation are planned.

The address of the proposed storage location is:

1 North Pennsylvania Avenue
Indianapolis, IN 46204

The location designated for the storage of nuclear density gauges is a locked storage location inside the basement of the building.
