Re: Control No. 139065 NRC license #3231038-01

Dear Mr. Lawyer,

As per our recent telephone call, to clarify the current amendment request, the correct spelling of the requested physician to add as an authorized user is Daryl C. Emery.

His 700 hours of training for CFR35.290 was between July 2002 and July 2005 instead of the erroneous dates listed on the submitted preceptor letter.

Please let me know if you need any additional information.
