Harsco Corporation
MultiServ Division
P.O. Box 5003
Cranberry Township, PA 16066

SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE,
LICENSE NO. 37-26522-02

Dear Mr. Hundertmark:

By application and letter, both dated May 17, 2006, you requested that we terminate your NRC radioactive material license, License No. 37-26522-02, (having expiration date of June 30, 2009). This license authorized fixed gauge use at your facility located at 3001 Dickey Road, East Chicago, Indiana. Information was provided confirming the transfer/receipt (on May 6-7, 2006) of all licensed material (two fixed gauges) to another licensee authorized to possess the material, along with copies of leak test records, current as of the time of transfer, confirming the non-leaking status of the sealed sources transferred. You also confirmed that no licensed material remains in your possession and that no leaking sealed sources were ever in possession of Harsco Corporation MultiServ Division. Based on information you have provided to us, we have concluded that licensed material is no longer used or possessed under NRC License No. 37-26522-02 and that your facility meets NRC criteria for release for unrestricted use, permitting us to terminate the license as requested. Accordingly, an amendment is enclosed, terminating your NRC License No. 37-26522-02.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

Loren J. Hueter
Materials Licensing Branch
