SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE

On May 12, 2006, you contacted the U.S. Nuclear Regulatory Commission and indicated that you wished to terminate your NRC radioactive materials license. The NRC staff has reviewed your NRC Form 314 (termination request). Based on its review, the staff has concluded that no radioactive materials have ever been procured or possessed by the licensee under this license. An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(20)(ii).

Based on these conclusions no further remediation or actions with respect to NRC regulated material is required. Your facility is suitable for unrestricted use and NRC license number 56-29214-01 for your facility at Yigo, Guam, is hereby terminated.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have questions or require clarification on any of the information stated above, we encourage you to contact us at 817-860-8132.

Sincerely,

/RA/
