Dear Mr. Nick:

Pursuant to our telephone conversations on or about January 16, 2006, and your letter dated November 1, 2005, please accept this correspondence as written confirmation of the successful removal of the licensed material, formerly stored pursuant to expired license (NRC License No. 52-19336-01) from the Rincon Industrial Park facility in Cayey, PR to the new location at 10 Calle Gertrudis in San Juan, PR on January 12, 2006.

After consulting the NRC website at [www.nrc.gov](http://www.nrc.gov) for guidance, please be advised the material was transported by private vehicle in strict compliance with applicable Department of Transportation and Nuclear Regulatory Commission regulations, specifically 10 CFR 71, "Packaging and Transportation of Radioactive Materials" and 49 CFR, Subpart C, "Hazardous Materials, Regulations," Part 171, "General Information, Regulations, and Definitions." Further be advised the subject material is stored in compliance with the terms and conditions previously discussed and as specified in the Materials License.

Upon receipt of this correspondence you are authorized to terminate the prior license and release the former facility for unrestricted use by the new property owners. Further, you are authorized to instruct Banco Popular, San Juan, PR to close the trust account maintained for decommissioning compliance and disburse any remaining funds as directed by Wittnauer Worldwide, LP or its successors or assigns.

Sincerely yours

  
Kelyin A. Massey, Radiation Safety Officer
