RE: NRC License No. 25-19852-01

Dear Colleen Murnahan,

(This letter is to amend the GlaxoSmithKline Biologicals- Hamilton (formerly Corixa Corporation) NRC radioactive materials license, No. 25-19852-01.)

GSK Bio- Hamilton wishes to formally apprise the NRC of management's intent to decommission and demolish the licensed outdoor facility listed as Building 7. The licensed room located in Building 7 was previously used for storage and decay of radioactive isotopes. No materials are currently present in this room or in Building 7. Pacific Health Physics performed decommissioning, under the supervision of Michael Simmons and GSK Bio- Hamilton personnel. All appropriate NRC, federal, state and local regulations and guidelines will be followed. Please find the attached site map and decommission report for your review.

We are currently undergoing a facility expansion. The demolition of Building 7 is critical to the established project timeline. If possible, an expedited assessment of this amendment would be greatly appreciated.

If you have any questions, please feel free to contact me directly at 406-375-2129 or brian.j.poletti@gskbio.com.

Sincerely,

Brian Poletti
EH&S Associate/RSO

Mr. Poletti:

Please let me know when can I expect to receive the attached form. If the formal name change is going to take longer than a month then I will make a note in our files, will wait until you formally notify us and will not track this as an immediate licensing action.

The evaluation by NRC of the decommissioning of building 7 will proceed as a separate licensing action and will not be affected by the proposed name change.

Mr. Torres,

Thank you for your acknowledgement. We have not formally changed the name

on the license, because we are still technically "Corixa" as well, a subsidiary of GlaxoSmithKline Biologics. I will complete and return the form.

Amendment request

Mr. Poletti:

This email acknowledges receipt of your expedited amendment request to decommission building 7. We will forward your request to our Decommissioning Branch for them to review the decommissioning report to determine releasibility for unrestricted use.

On a separate matter, 10 CFR 30.34(b) states that "no license issued or granted pursuant to the regulations...nor any right under a license shall be transferred, assigned or in any manner disposed of, either voluntarily or involuntarily, directly or indirectly, through transfer of control of any license to any person, unless the Commission shall...find that the transfer is in accordance with the provisions of the Act and shall give its consent in writing." I noted a change of company name in your letterhead. Please fill out and have the attached Change of Ownership form

signed to be in compliance with this regulatory requirement. Call me if you have any questions on how to fill the form.

Change of Control and/or Change of Ownership
(includes Change of Name)

10 CFR 30.34(b) states that "no license issued or granted pursuant to the regulations...nor any right under a license shall be transferred, assigned or in any manner disposed of, either voluntarily or involuntarily, directly or indirectly, through transfer of control of any license to any person, unless the Commission shall...find that the transfer is in accordance with the provisions of the Act and shall give its consent in writing. Although not specifically addressed by 10 CFR 30.34, licensees undergoing a name change may also be affected by this regulation.

Control over licensed activities can be construed as the authority to decide when and how a license (licensed material and/or activities) will be used. A change of ownership may be an example of a change of control. The central issue is whether the authority over the license has changed. In all cases, determining whether a change of control has taken place or whether a change is in name only is the Commission's responsibility.

Licensees must notify the Commission when they are undergoing a possible change of control and/or a change of name. While this notification is not required within a certain time frame, NRC needs adequate time to review the submittal to ensure that the transfer is in accordance with the regulations.

In order to process your request for a change of control/ownership and/or a name change, the information on the following pages is required. Our fax number is (817) 860-8263 or (817) 860-8188. If you have any questions regarding our discussion or this fax, please contact me. When responding to this fax, please include the license, docket, and mail control numbers, located at the top of this page as well as the following pages. Thank you.
