Re: Materials License Number 21-32361-01

Dear Materials Licensing Branch:

This letter is notification to the Nuclear Regulatory Commission that the Radiation Safety Officer of record, Brian Kositz has left Arkema Inc, as of June 28, 2006. I am replacing him as RSO and fulfill the requirements of our materials license.

Attached is a copy of my training certificates from Ohmart Corporation and John Domattii. I have been involved with radiation safety for a number of years.

We are in the process of trying to get rid of the two sources we have. Either by transferring to one of our sites already utilizing these type gages or by disposal. Either way, we will contract with an approved licensed company to handle the transaction.

Arkema will continue to abide by the terms and conditions of the above- referenced Materials License. If you have any questions, or if we need to take any other action, please call me at 734-246-2065.

Sincerely,

A handwritten signature in black ink that reads "Paul Shelton".
