

July 13, 2006

LICENSEE: FirstEnergy Nuclear Operating Company  
FACILITY: Perry Nuclear Power Plant, Unit 1  
SUBJECT: SUMMARY OF THE JULY 11, 2006, PUBLIC EXIT MEETING TO DISCUSS  
THE RESULTS OF THE NRC'S CONFIRMATORY ACTION LETTER (CAL)  
FOLLOWUP INSPECTIONS IN THE HUMAN PERFORMANCE AND  
EMERGENCY PREPAREDNESS AREAS

On July 11, 2006, the Nuclear Regulatory Commission (NRC) held a public meeting at the Quail Hollow Resort in Painesville, Ohio. The meeting was between NRC Region III and FirstEnergy Nuclear Operating Company (FENOC) management to discuss the results of the NRC's CAL followup inspections in the areas of Human Performance Action Item Implementation and Emergency Preparedness Action Item Implementation and Effectiveness. The meeting notice, NRC presentation, and licensee presentation can be found in the Agencywide Documents Access and Management System (ADAMS) as ML061930118, ML061930406, and ML061930397, respectively. A list of principal NRC and licensee meeting participants can be found in the attached Enclosure.

The NRC began the meeting with a review of Perry's performance since entering the Multiple/Repetitive Degraded Cornerstone column of the NRC's Action Matrix. This was followed by an overview of the CAL and a brief summary of the results of previous CAL followup inspection activities. The results of the NRC's inspections of the actions implemented by the licensee to address issues in the Human Performance and Emergency Preparedness areas were then discussed. As part of this public exit meeting, FENOC responded to the NRC's assessment and discussed the progress of improvement efforts at Perry. At the end of the meeting, members of the public were given the opportunity to ask questions of NRC officials and FENOC representatives.
