RE: NRC License #: 37-31111-01

03037102

Dear Mr. Nicholson:

I would like to terminate my NRC License # 37-1111-01. My facility has been acquired by Radiology Associate of Main Line (RAML). There NRC license # is 37-31120-01. The radioactive sources acquired under license 37-1111-01 will be transferred to 37-31120-01, once we receive the copy from the new owner. Ramanik F. Patel, M.S., DABR our RSO will document the transfer of the licensed material and will perform the closing survey and report as soon as the license is received from RAML.

We would like you to help us expedite this process

Thank you very much.

Sincerely,

Darris Wine, M.D.
President
