Dear Mr. Lee,

In response to the voidance of the last action, Control Number 138627, we are resubmitting our amendment request. I have included additional information for completion of our license amendment.

1. We have attached a copy of NRC Form 313A for your review. Please add Dr. Coughlin as an Authorized User (AU).
2. We have attached a letter from the current Radiation Safety Officer (RSO), Dr. Lester. Dr. Lester has attested that Dr. Coughlin has the required experience to serve as the new RSO.
3. We wish to add 35.300 authorization to our NRC license. Total activities for I-131= 150 mCi, Sr-90 = 6 mCi, Sm-153 = 150 mCi. The byproduct material will be stored in the Hot Lab, XR-29. It has a shielded hood, as well as a shielded lock storage cabinet. Portable shields will be used as needed.
4. Dr. Coughlin should be the only AU for 35.300. Samuel N Bone, and Samuel Nicholas Bone, III, MD are the same individual.

Please let me know if you have any questions.

Respectfully,

A.F. Beeler, Warden

Additional information is needed for completion of your license amendment, as follows:

1. As followup to your amendment request contained in the application dated March 7, 2006 and signed by Christopher T. Coughlin, M.D., please submit a letter requesting that Dr. Coughlin be named as an Authorized User (AU) on your NRC license. Your request must include a previous license number (if issued by the NRC) or a copy of the license (if issued by an Agreement State) or a copy of a permit issued by a Commission master materials licensee, a permit issued by a Commission or Agreement State broad scope licensee, or a permit issued by a Commission master material license broad scope permittee on which Dr. Coughlin is specifically named as an AU for the uses requested.
2. Please confirm in the letter that Dr. Coughlin has been delegated as the Radiation Safety Officer (RSO) and should be named as such on your NRC license. Your request must include a previous license number (if issued by the NRC) or a copy of the license (if issued by an Agreement State) or a copy of a permit issued by a Commission master materials licensee, a permit issued by a Commission or Agreement State broad scope licensee, or a permit issued by a Commission master material license broad scope permittee on which Dr. Coughlin is specifically named as an RSO for the uses requested. If Dr. Coughlin has not been previously listed as an RSO, you can include a separate statement signed by your current RSO (Dr. Lester) providing written attestation that Dr. Coughlin has the required training and experience in the radiation safety, regulatory issues, and emergency procedures for the types of use authorized by your NRC license and can function independently as an RSO.
3. Please confirm your request to add 35.300 authorization to your NRC license. Also specify the total amount (in millicuries) requested. For types of use permitted by 35.300, please provide the locations where byproduct material will be stored. Describe the rooms where patients will be housed if they cannot be released under 10 CFR 35.75. The discussion should include a description of shielding, if applicable.
4. Your application included a number of American Board of Radiology (ABR) certificates for physicians who are to be listed on your license as Authorized Users. Please provide a list of those individuals, to include their proposed authorized use (e.g. 35.100, 35.200 and/or 35.300). The majority of the physicians are currently listed on your NRC license for 35.100, 35.200, and Iodine-131 for imaging and localization studies. If you wish to add 35.300 authorization for the currently listed physicians, you will need to provide documentation for those individuals similar to that requested for Dr. Coughlin in Item 1. Certificates were included for Samuel N. Bone, M.D. and Samuel Nicholas Bone, III, M.D. Please verify that these are two individuals if both names are included in your list of Authorized Users.

Please note that you may not reply to this request by return e-mail. Your prompt reply must be in writing by letter, signed by a member of Senior Management, which can be sent by facsimile to (610) 337-5269. Please reference the Control Number. Contact me if there are any questions regarding this request.
