

L&R:IB:WEG (19-8654-1)

JUL 30 1962

U. S. Department of the Treasury
U. S. Customs Laboratory
103 South Gay Street
Baltimore 2, Maryland

Attention: Mr. Melvin Lerner

Gentlemen:

Transmitted herewith is Byproduct Material License No. 19-8654-1 issued in response to your application dated July 11, 1962.

You will notice that we have specified the gas chromatographic cell Models as BI-2S or BI-2SC on the basis of information supplied by Electronic Instruments for Research, Inc. If these are not the cell models which you desire to procure, it will be necessary for you to apply for amendment of this license, supported by detailed information regarding the design and construction of the cells desired.

Your attention is directed to Section 20.203, 10 CFR 20, regarding the labeling required for the gas chromatographic cells and devices containing byproduct material. Specifically, we note that the label must contain information as to the isotope and quantity present in the cell and/or device.

Very truly yours,

HYDRO COMPLIANCE DIVISION

Robert E. Brinkman
Isotopes Branch
Division of Licensing
and Regulation
