[Redacted]

Salem

Concerns raised at Salem in 2002 - [Redacted] heard about
[Redacted] manipulating Steam leak - trying to look into the
concerns he was hearing about

Shift issues, other concerns w/ other shifts

9/24/02 Email from [Redacted] to Dr. KH
issue affecting safe operation of Nuc. station

9/25/02 2nd email - 2nd thoughts - I don't think this
will be effective - ? statements re work environment
even if Mgt. ^{openly} gives a little in the area of safety to gain momentum.
What meant - explained could have been upset - did not want
to leave - ^{Overall} did not pose ^{Safety issues} threat to environment & people -
try to see how close they could come to that thought.

Mgt. picks low-hanging fruit - big issues that cost are hard to get corrected.

Explained this letter (1st one) looks like he's going to take
an active part. Going to jump in and help her.

After 45 hours - decides to be there if KH wants info -
not going to be active because he might get in trouble &
it probably isn't going anywhere.

Fear of raising concern - No. Has had an OS ~~attend~~
call him a name at a meeting. If people you work for don't like.

[redacted] ^{when asked}
Based on raising a concern to OS - asked for it -
agrees it's a concern. Two months later claims he hadn't
heard about it. Then [redacted] presented him with notes &
challenged his bluff.

[redacted] tried to do things in the beginning. Gets in
trouble - now just

Believes lost temper because mgt. put him in middle &
said they were fixing when not. ^{1st step} Re barring the diesel -
using wrenches not designed for the task & they kick up.
~~Someone~~ Someone got hurt. Someone else took it to [redacted] who
reprimanded him for not telling him about it. Then later said
conflicting statement above - "hadn't heard" - Why [redacted] mad.

Does this affect people in raising future concerns? Some
people - not [redacted] May say why bring something up if
they're not going to do anything about it.

Undecided he could have better prepared for this interview.

[redacted] Not affected - will raise concerns.
Asked why he needed to "bow out" of KH issues 9/02? -
Will not put himself in immediate danger. Didn't know of
anyone who would.

Willing to raise nuclear safety? ^{Example:} Yes. Offered diesel generator
24 hr. run - write tech specs. ^{then do major maintenance}
Why - ~~Company~~ When questioned mgt. as a safety concern -
What does it prove? ^{reminds people here. Answer is that's}
^{the way the industry is going now - got to}
^{make outages shorter.}

10/31 Mark M. advised [redacted] wants to be mentioned -
not comfortable w/ when rep. present

11/3 [redacted] scheduled for re-interview

- prep. & alleg. review on 10/31 -

- follow up w/ [redacted]

- 11/3 Jfr w/ al R. tape & comments

11/3 Hc w/ alleg.

- questioned re ability to find [redacted] told he could not help there

- asked about timing - advised priority assign. - had to be worked
in a certain way -> could not offer any EDC

- [redacted] tape transcript - advised not yet - [redacted] alleged

& said OT played tape for him. Said he thought about the
tape + agreed ^{understand} what he thought for his level of position to
have "dangers" & not want to go forward & not right.

- She has had diminished contact w/ people as OT investigation progresses

- [redacted] hotel w/ airport stairs. While on Salem outage TC

May. assignment recently

pm - Schedule [redacted] [redacted] [redacted] [redacted]

11/4 INTVW of [redacted] tree [redacted] - no answers

11/5 [redacted] turn out for [redacted] [redacted] [redacted]

interviews 11/6-7

11/12-13 see note
