To: Allan Caggiano, Chief Medical Physicist

I have been assigned to work on the amendment request dated June 29, 2006, requesting to add Benjamin Rosenbluth, M.D. as an authorized user for 35.400 and 35.600.

Your NRC license authorizes a Varian VariSource HDR unit, however the supplied training certificate from June 15, 2006 references GammaMed training. Please ask your management to provide signed confirmation that, before he independently performs the duties of HDR authorized user, Dr. Rosenbluth will receive vendor or vendor-equivalent training in device operation and safety procedures for your VariSource unit . [Vendor-equivalent training refers to training provided by an authorized medical physicist or authorized user who received the same training directly from the vendor.]

Would you also please provide a report on the status of your hospital's efforts to dispose of the Gd-153 patient attenuation correction sources and depleted uranium shielding?

You may fax the hospital's signed response to my attention at 610-337-5269, referencing mail control 139074. You may wish to leave a voicemail or e-mail message to alert me when the fax is sent.

Please confirm that you received this message.

Thank you,
