REGION 1

June 29, 2006

Steven Courtemanche, Health Physicist
Commercial and R&D Branch
U.S. Nuclear Regulatory Commission, Region I
475 Allendale Road
King of Prussia, PA 19406

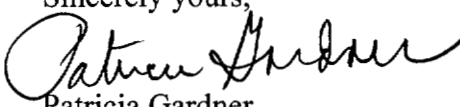

Dear Mr. Courtemanche:

Staff of the Bureau of Environmental Radiation (BER) reviewed the document: (Docket No. 030-34438) *Notice of Availability of Environmental Assessment and Finding of No Significant Impact for License Amendment to Byproduct Materials License No. 29-30390-01, for Termination of the License and Unrestricted Release of the SFBC Taylor Technology, Inc.'s Facility in Princeton, New Jersey.*

The results of the fixed and removable contamination surveys indicate levels at or near background which comply with the Department's remediation criteria of 15 mrem/y (N.J.A.C. 7:28-12.8(a)).

The BER agrees with the Nuclear Regulatory Commission's Finding of No significant Impact for the proposed action to terminate Materials License No. 29-30390-01 and release the facility at 107 College Road East, Princeton, New Jersey for unrestricted use.

Thank you for giving us the opportunity to comment on this Environmental Assessment. Please contact Ed Truskowski at (609) 984-5542, if you have any questions.

Sincerely yours,

Patricia Gardner
Manager
