Site Vice President  
Limerick Generating Station

Dear Mr. DeGregorio:

Thank you for the opportunity to meet President George W. Bush, during his visit to the Limerick site on May 24, 2006. I appreciate the significant amount of preparation that was involved in ensuring the President's visit went smoothly.

During his address to the employees and guests, he recognized nuclear energy as a reliable source of clean electricity and its important role in the nation's energy policy. The President's acknowledgment that the workers and managers of the nuclear power plants are incredibly skilled people who "know what they are doing" was, I'm sure, greatly appreciated by you and your staff.

Sincerely,
