

PART I-LICENSE, INSPECTION, INCIDENT/EVENT, AND ENFORCEMENT HISTORY

1. AMENDMENTS AND PROGRAM CHANGES:

(License amendments issued since last inspection, or program changes noted in the license)

<u>AMENDMENT No.</u>	<u>DATE</u>	<u>SUBJECT</u>
02 for license 06-19165-02G		License Renewal
06 for license 06-19165-01		License Renewal

2. INSPECTION AND ENFORCEMENT HISTORY:

(Unresolved issues; previous and repeat violations; Confirmatory Action Letters; and orders)

2001001 violation on 591 for failing to provide 10 CFR 32.52 reports within 30 days of the end of the calendar quarter. This violation remains open (See Part II, Item 4).

3. INCIDENT/EVENT HISTORY:

(List any incidents, or events reported to NRC since the last inspection. Citing "None" indicates that regional event logs, event files, and the licensing file have no evidence of any incidents or events since the last inspection.)

None

PART II - INSPECTION DOCUMENTATION

1. ORGANIZATION AND SCOPE OF PROGRAM:
(Management organizational structure; authorized locations of use, including field offices and temporary job sites; type, quantity, and frequency of material use; staff size; delegation of authority)

Very small one person operation consisting of mostly wipe testing 5-10 sealed sources per month. Field work consists of instrument setup.

2. SCOPE OF INSPECTION:
(Identify the inspection procedure(s) used and focus areas evaluated. If records were reviewed, indicate the type of record and time periods reviewed)

Inspection Procedure(s) Used: Inspection Procedures 87126

Focus Areas Evaluated: 03.01- 03.07

3. INDEPENDENT AND CONFIRMATORY MEASUREMENTS:
(Areas surveyed, both restricted and unrestricted, and measurements made; comparison of data with licensee's results and regulations; and instrument type and calibration date)

Area surveys conducted using NRC 23221G Ludlum Model 14C with a 44-9 Model detector. No significant contamination was detected in laboratory area.

4. VIOLATIONS, NCVs, AND OTHER SAFETY ISSUES:
(State the requirement, how and when the licensee violated the requirement, and the licensee's proposed corrective action plan. For NCVs, indicate why the violation was not cited. Attach copies of all licensee documents needed to support violations.)

10 CFR 32.52 requires that each person licensed under 10 CFR 32.51 to initially transfer devices to generally licensed persons shall report by appropriate method listed in 10 CFR 30.6(a), all transfers of such devices to persons for use under the general license in 10 CFR 31.5.

The report must cover each calendar quarter, must be filed within 30 days of the end of the calendar quarter, and must clearly indicate the period covered by the report.

Contrary to the above, the licensee did not report transfers of such devices to persons for use under the general license in 10 CFR 31.5 within 30 days of the end of the calendar quarter. Specifically, transfers for the calendar quarter ending March 31, 2005 and calendar quarter ending June 30, 2005, were not reported until September 1, 2005, a period exceeding 30 days.

This is a repeat violation.

5. PERSONNEL CONTACTED:
(Identify licensee personnel contacted during the inspection, including those individuals contacted by telephone.)

Use the following identification symbols:

- # Individual(s) present at entrance meeting
- * Individual(s) present at exit meeting

*Michael Haller- Technical Director

#Ray Moncevicius- Radiation Safety Officer, Quality Manager
