These requirements include having full documentation of processes for which internal controls are needed to reduce risk and having agency guidance in place that details managers' responsibilities for internal control.

Scope

The scope of this work order is to provide guidance and assistance on updating NRC's Management Directive 4.4, Management Controls (and associated Handbook) to be consistent with the revised OMB Circular A-123 and to coordinate our review with the results of the A-123 contractor's review in this area, if any. Foxx & Company will also provide assistance, as needed, in resolving issues identified by the work of the A-123 contractor and NRC, including (1) assistance in developing additional documentation, and (2) guidance regarding any internal control gaps identified by the A-123 contractor or NRC, and (3) to provide assistance to implement corrective actions to fill the *identified* gaps.
