The allegor just called me a few minutes ago. She asked me if I could provide her with an agenda for the meeting. I (very) briefly discussed the general subject matter for the meeting (i.e., the normal EOC Assessment discussion, segueing into the SCWE discussion), but I told her that I didn't have a final agenda to give to her. She indicated that she will be seeing Hub and Randy tomorrow, and she will ask them at that time if we have a final version of the agenda that she can have. [She will be interviewing here with Jeff Teator as part of the H&I review, and she had asked to speak with Hub and Randy at that time.]

She also asked me if Roy Anderson was coming to the meeting. I told her that I was not sure.
