Sam, FYI this is the item I mentioned to you this afternoon.

Ernie's note captures it better than I did.

As we better pin down the nature of the session -- hopefully, well before it occurs -- we will generate a note that can be surfaced with Commission offices so they are informed.

Glenn,

FYI - This morning I told Hub, Randy and Dave V, about the latest call from the subject to Eileen late yesterday. Alleger has supposedly been invited as "a PSEG Whistleblower" to be the key note speaker on 3/28/04 (TMI 25 yr. anniversary), apparently at some event in the Salem area. The date coincides with TMI and alleger's 1 yr departure from Salem. Eileen didn't get into who invited alleger but surmises that it is a group such as Unplug Salem. Alleger expects national media coverage of the event. Alleger plans to present the speech to the NRC PRIOR to 3/28. Eileen thanked alleger for the heads up.
