

FEB 25 1960

LRL:CPM
Docket No. 70-139

Engelhard Industries, Inc.
D. E. Makepeace Division
Pine & Dunham Streets
Attleboro, Massachusetts

Attention: Mr. John Durant
Business Manager

Gentlemen:

This refers to your application dated December 15, 1959, as supplemented January 22, 1960 for amendment to your special nuclear material license, authorizing the burning of waste materials contaminated with small quantities of enriched uranium.

In order that we may continue our evaluation of your proposed procedures, we will require a more detailed description of the radiation safety procedures to be followed in handling the ashes from the incinerator.

We will give your request our attention promptly upon receipt of this additional information.
