Re: Culpeper Regional Hospital  
Radioactive Materials License # 45-23040-01

03020205

Dear Mr. Hott,

I am writing to you to request that we amend our Radioactive Materials License, referenced above, to exclude the medical use of any byproduct material allowable under 10 CFR 31.11. In our most recent NRC materials license renewal application submitted last year our contracted health physicist at that time must have inadvertently checked the box on the shortened application version of the Nureg 1556 to include this service. We are not currently, and to my knowledge we have never in the past, engaged in any activities here at Culpeper Regional Hospital, which are regulated under 10 CFR 31.11. Therefore, please remove part C under items 6-9 of our current Radioactive Materials License 45-23040-01. Dr. David Weber is to remain our RSO, but should be removed as an authorized user under this particular regulation. Please contact us at 1(540) 829-4151 should there be any additional questions.

Sincerely,

Jeffrey S. Graham B.S./CNMT  
Nuclear Medicine Lead Technologist
