THIS LETTER WAS ISSUED TO THOSE ON THE ATTACHED LIST.

SUBJECT: NOTIFICATION OF UPCOMING MEETINGS

Dear Sir:

Each year, the U.S. Nuclear Regulatory Commission (NRC) conducts an integrated assessment of nuclear power plant performance. This assessment is based upon the risk significance of the inspection findings by the NRC's resident and region-based inspectors and the insights gained from the licensee-provided performance indicators. The results are then communicated with the public through a public meeting held in the vicinity of each nuclear power plant. Nationally, plants with significant performance shortcomings are reviewed by the NRC's senior management and discussed with the Commission in a public meeting in Rockville, Maryland.

We have completed the annual assessment associated with the 2005 inspections and performance indicators for Diablo Canyon. The results can be found at http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/DIAB1/diab1_chart.html and http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/DIAB2/diab2_chart.html for Units 1 and 2 respectively. We have also scheduled a public meeting to discuss the results. The meeting for Diablo Canyon is scheduled for Tuesday, July 25, 2006 at 2:30 p.m. at the Embassy Suites Hotel, 333 Madonna Road, San Luis Obispo, California, CA 93405.

In addition, we will have another public meeting on the same day to provide the members of the community an opportunity to ask questions and to provide comments to NRC staff on issues regarding the Diablo Canyon Power Plant. This meeting is scheduled for Tuesday, July 25, 2006 at 6:30 p.m. at the Embassy Suites Hotel, 333 Madonna Road, San Luis Obispo, California, CA 93405. In conjunction with this meeting, we are offering all local decision-makers an opportunity to meet separately with an NRC Region IV manager and myself, the NRC Senior Resident Inspector at Diablo Canyon, immediately following the public meeting. This opportunity is intended to provide you a forum to ask any questions that you may have and to let you meet personally the NRC personnel with whom you would interface in the event of an emergency at the nuclear power plant.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be made available electronically for public inspection in the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room). For your information, the meeting notices for the above-mentioned meetings are available at our NRC website. The link is <http://www.nrc.gov/public-involve/public-meetings/index.cfm>.

I fully anticipate that you will find this opportunity responsive to your needs and I look forward to personally greeting you at the meeting. Should you have any questions concerning this initiative, please contact me at (805) 595-2354.

Sincerely,

/RA/

Terry Jackson
Senior Resident Inspector
