

July 27, 2006

Jeff Meyers, Administrator
Emergency & Radiological Services Division
Department of Environmental Quality
P.O. Box 4313
Baton Rouge, LA 70821-4313

Dear Mr Meyers:

We have reviewed the final revision to the Louisiana regulations Title 33 Part XV, received by our office by e-mail on June 2, 2006. These regulations were reviewed by comparison to the equivalent Nuclear Regulatory Commission (NRC) rules in 10 CFR Parts 20, 31 and 35 and the requirements of the three amendments identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with Ms. Parker on July 20, 2006.

As noted in All Agreement States letter STP-05-072, dated September 28, 2005, NRC staff will continue to review Agreement State GL Device proposed and final rules but will hold in abeyance any determination on those rules and compatibility of those rules, if the Agreement State has the essential elements of the NRC's rule and is more restrictive than the NRC's rule. For Agreement States without a GL Device rule or a GL Device rule less restrictive than the NRC rules, the staff will factor this determination into results of the NRC's review of the State's proposed and final rules and the compatibility findings during Integrated Materials Performance Evaluation Program (IMPEP) reviews.

Although we had only two comments for the 2001-1 amendment stated in our August 18, 2005 letter, as a result of our re-review against the Compatibility Category B designation, we have three additional comments that have been identified in the enclosure. Comment 1 indicates that the State's regulation is more restrictive than the NRC's regulation, and there is no corrective action required for this comment at this point. However, Comments 2 and 3 indicate that the State's regulations are less restrictive than the NRC's regulations, and they need to be addressed in the State's future rulemaking process.

As a result of our review of the other rules, we have no additional comments. Please note that we have limited our review to regulations required for compatibility and/or health and safety. We have determined that these regulations meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200.

We request that when a final amended version of Louisiana regulations are adopted and published in response to our comments, that a copy of the "as published" regulations be provided to us for review as requested in STP Procedure SA-201, Review of State Regulatory Requirements. As requested in STP Procedure SA-201, "Review of State Regulatory Requirements," please highlight the location of any changes made by Louisiana, in response to our comments and provide a copy to STP.

The SRS Data Sheet summarizes our knowledge of the status of other Louisiana regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP website: <http://www.hsrdo.org/nrc/rulemaking.htm>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me, or Jenny Tobin at (301)415-2328 or by e-mail at JCT1@NRC.GOV.

Sincerely,

IRA By KNSchneider

Dennis K. Rathbun, Deputy Director
Office of State and Tribal Programs

Enclosures:
As stated

1. Or other generic Legally Binding Requirements
2. (Y/N) Y means "Yes," there are comments in the review letter that the State needs to address. N means "No," there are no comments in the review letter.
3. Not required means these regulations are not required for purposes of compatibility
4. A State need not adopt a specific regulation if the State has no licensees that would be subject to that regulation. See: "Final Policy Statement on Adequacy and Compatibility of Agreement State Programs," III.1. Time Frame for Adoption of Compatible State Regulations, p. 6, SECY-95-112, May 3, 1995.
5. ADAMS ML Number
6. By letter dated September 2, 2005, from Paul H. Lohaus, Director, Office of State and Tribal Programs, Agreement States were given 90 days to issue legally binding requirements satisfying the requirements of NRC Order EA-05-090.
