**Subject:** Question Counts....

Ken,

We've performed a "machine count" of the initial set of VY questions and we have (currently):

**138 AMP-related questions AND 10 AMR-related questions**

Obviously, once we start into a higher level of review of our assigned AMRs, we will produce a higher # of AMR-related questions.....

As I mentioned to you before; if we average just two (2) additional questions per initial question, we will produce ~400 questions by the end of the AMP audit..... Hopefully, our "average number of additional questions" will be smaller than two (2)....

Mike
