Subject: RE: License

Mr. Smith,

Thank you for the opportunity to provide input on the proposed license condition. Minor changes are suggested in the text below for clarification purposes. If you have any questions, please contact me.

Peter J. Miner

Subject: License

As we discussed, the text below is a proposed license condition regarding liability insurance. Please let me know if you have any comments.

USEC shall provide to the Commission, at least 120 days prior to obtaining licensed material, documentation of any nuclear liability insurance required to be obtained by USEC under its lease with DOE for the ACP by that time or, alternatively, the status of USEC's efforts to obtain any such nuclear liability insurance. During the time that USEC is engaged in efforts to obtain nuclear liability insurance, USEC shall provide the Commission with status reports regarding those efforts. The status reports shall be submitted at a frequency of at least once every six months following issuance of a license. USEC shall notify the Commission within 30 days upon receiving notification of denial or approval of commercial nuclear liability insurance for the ACP. If commercial nuclear liability insurance is available required to be obtained under its lease with DOE, within 60 days of receiving notification of approval of commercial nuclear liability insurance, USEC shall provide proof of nuclear liability insurance coverage and a justification, for Commission review and approval, if USEC is proposing to provide less than \$300 million of nuclear liability insurance coverage.
