NO. 139113

Dear Dr. Eisenberg:

This is in reference to your letter dated July 5, 2006 requesting to amend Nuclear Regulatory Commission License No. 29-30454-01. In order to continue our review, we need the following additional information:

In order for Dr. Michael Anshelevich to be named Radiation Safety Officer, a letter of attestation signed by a preceptor Radiation Safety Officer is required per 10 CFR 35.50(d). The attestation letter must verify the proposed Radiation Safety Officer has training in radiation safety, regulatory issues and emergency procedures for the types of use authorized on your license.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Toolkit Index Page**. Or you may obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-888-293-6498. The GPO is open from 7:00 a.m. to 8:00 p.m. EST, Monday through Friday (except Federal holidays).

We will continue our review upon receipt of this information. Please reply to my attention at the Region I Office and refer to Mail Control No. 139113. If you have any technical questions regarding this deficiency letter, please call me at (610) 337-5399.
