MEETING AGENDA  
Omaha Public Power District (OPPD)  
September 7, 2006

Purpose: To discuss and identify options that OPPD has for the next dry cask storage campaign. The NRC granted an exemption to OPPD on July 19, 2006, to Certificate of Compliance (CoC) 1004 to support loading four 32PT dry shielded canisters for the Standardized NUHOMS® Horizontal Modular Storage System for Irradiated Nuclear Fuel at the Fort Calhoun Station. This exemption provides immediate relief for the spent fuel pool. OPPD would like to discuss long-term options.

Outcome: Options identified
