SUBJECT: ACCEPTANCE REVIEW OF FINAL STATUS SURVEY REPORTS FOR  
DETAILED TECHNICAL REVIEW, CONTROL NOS. 138005, 138386, 138818

Dear Mr. Conant:

This is in reference to your letters dated October 31, 2005, February 7, 2006, and May 2, 2006 requesting to amend Nuclear Regulatory Commission License No. 06-00217-06. Specifically, you requested to amend the portion of your license that applies to the Building 2, Building 17, and Building 5/6A Complexes, respectively. Also, your letters requested the removal of these areas from the license. We have completed our initial acceptance review, which is an administrative review, of each Final Status Report, and we have determined that your submission is sufficiently complete for NRC to initiate a detailed technical review. Please note that the technical review may identify omissions in the submitted information or technical issues not identified during the administrative review that require additional information. The technical review will be completed by December 31, 2006.

If you require any additional information regarding this letter, please contact me at (610) 337-5205 or Ms. Laurie Kauffman at (610) 337-5323.

Current NRC regulations and guidance are included on the NRC'S website at [www.nrc.gov](http://www.nrc.gov); select Nuclear Materials; Medical, Industrial, and Academic Uses of Nuclear Material; then Toolkit Index Page. Or you may obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-888-293-6498. The GPO is open from 7:00 a.m. to 9:00 p.m. EST, Monday through Friday (except Federal holidays).

Thank you for your cooperation in this matter.

Sincerely,

***Original signed by Marie Miller***
