SUBJECT: OLIVER W. CAMINOS, M.D., LICENSE AMENDMENT, CONTROL NO. 139164

Dear Dr. Caminos:

This refers to your license amendment request dated July 17, 2006 and your letter dated March 28, 2006. Based on my telephone conversation with Eric Lege on August 1, 2006, it is my understanding that the list of temporary job-sites in the July 17, 2006 are the most current and that the information listed in the letter dated March 28, 2006 should be disregarded. Therefore, enclosed with this letter is the amended license with the July 17, 2006 letter referenced in License Condition Number 15.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at [www.nrc.gov](http://www.nrc.gov); select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Toolkit Index Page**. Or you may obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-888-293-6498.
