Neil,

I responded to the e-mail, and informed the individual that I cc'd Lisa Jarriel, who was involved in the development of the information that was placed in the public record for comment.

This came in via the agency's external web site. I'm not sure who might be the best person to respond to this. If you can, please forward this to that individual.

Thanks,  
Neil

comments: I noticed that there was a comment period for rules for improving safety-conscious work environment that ended 3/19. My doctoral dissertation relates scwe to leader communication styles and may be of interest to whomever is working on the topic. Unfortunately, it was not published in time for the 3/19 deadline, but the link to the document is below if it would be of help to anyone.
