 Subject: My version of Russ' Slide Presentation

Jeff,

Here is my version of the slides. They have not been reviewed by anyone in HQ yet. Also, Chris Nolan passed the comment that the presentation should discuss [REDACTED] this is in anticipation of Commissioner Merrifield's briefing... I think it does. Also, I added an optional slide on "key messages" we will need to send once our decisions becomes public. This is to address stakeholder concerns and is consistent with the latest communications plans...
