RE: Material License #24-04206-16MD (Wilkes-Barre, PA)

Please Expedite Licensing Request

Dear License Reviewer:

Please amend the above referenced material license to reflect the following modification:

1. Amend to name **Kerry Iannielli, R.Ph.** as an Authorized Nuclear Pharmacist. Ms. Iannielli has completed the necessary didactic and practical experience training in accordance with 10 CFR 35.980 (refer to attached documentation). In addition, the Pennsylvania Board of Pharmacy recognizes Ms. Iannielli as a Registered Pharmacist.

An expedited review of this request would be appreciated due to extended staffing shortages in this pharmacy. All other items relating to our radioactive material license and established Radiation Safety Program remain unchanged at this time.

Please contact April Chance, Manager, Radiation, Health and Safety, at (314) 654-7960 for additional information to support this request. Thank you for your prompt assistance regarding this matter.

Sincerely,

Kay M. Yoder
Director Radiation, Environment, Safety & Health – Mallinckrodt Inc.

RE: Proposed Authorized Nuclear Pharmacist – Kerry M. Iannielli, R.Ph.

Dear Kay:

Attached, please find documentation outlining the nuclear pharmacy training and experience received by Kerry Iannielli, R.Ph. Ms. Iannielli received her “on the job” nuclear pharmacy training and practical experience under my supervision during the period of April 3, 2006 to July 28, 2006.

Based on Ms. Iannielli’s training and experience, as outlined in the attached documents, I confirm that he/she has achieved a level of competency sufficient to independently operate a nuclear pharmacy. I recommend elevating Kerry M. Iannielli, R.Ph. to the status of Authorized Nuclear Pharmacist in accordance with 10 CFR 32.72.

Sincerely,

Christine A. Treolo, R.Ph.
Nuclear Pharmacy Manager

F-18	200 mCi	1,2,3,4,5,6		
Cs-137	0.2 mCi	1,2,5		
			TOTAL HOURS:	
			40 hours	

Key for "Use": the number, or numbers, entered under "Use" should correspond to the handling experience for each radionuclide.

1. Ordering, shipping, receiving radioactive materials and performing related radiation surveys.
2. Calibrating, using and performing checks for proper operation of dose calibrators, scintillation detectors, survey meters, and, if applicable, instruments used to measure alpha- or beta-emitting radionuclides.
3. Calculating, assaying and safely preparing dosages for patients or human research subjects.
4. Using appropriate internal controls to avoid mistakes in the labeling and/or administration of by product material.
5. Using procedures to prevent or minimize contamination and using proper decontamination procedures.
6. Learning emergency procedures to handle and contain spilled materials safely, including related decontamination procedures, surveys and wipe tests.
7. Eluting Tc99m from generator systems, assaying the eluate for Tc99m and for Mo99 and processing the eluate with reagent kits to prepare Tc99m labeled radioactive drugs.
