

August 10, 2006

John Rycyna
Senior Project Manager
Nuclear Energy Institute
1776 I Street, NW
Washington, DC 20006-3708

Dear Mr. Rycyna:

In response to your July 20, 2006 letter, transmitting NEI 06-06, Revision 0, Fitness for Duty for New Plant Construction Sites, the Nuclear Regulatory Commission (NRC) has provided the attached comments. In summation, considerable work needs to be done on the document before the NRC would consider endorsement. We appreciate your efforts on this document and look forward to working with you to finalize it.

If you have further questions, please don't hesitate to contact me, or Tim McCune.

Sincerely,

/RA/

Dr. Ralph Way, Deputy Director for Security
Programs
Office of Nuclear Security and Incident Response
