Dear Mr. Christian:

On May 4, 2006, the NRC completed the onsite portion of a security baseline inspection at your Surry Power Station, Units 1 and 2. The enclosed report documents the inspection results, which were discussed with Mr. Nelson Martin, at the Corporate office, on April 13, 2006, and Mr. D. Jernigan and other members of your staff on May 4, 2006.

This inspection examined activities conducted under your license as they relate to security and compliance with the Commission's rules and regulations and with the conditions of your license. The inspectors reviewed selected procedures and records, observed activities, and interviewed personnel.

Based on the results of this inspection no findings of significance were identified.
