- SENSITIVE ALLEGATION INFORMATION -
- PROTECT ACCORDINGLY -

Per Randy's request, I got in touch with the allegor yesterday. Regarding the transcript of the [REDACTED] from her civil suit, she will be sending it to my P.O. Box. [REDACTED] *7c* she claims that he lied under oath during the civil suit, and that we should not rely on his testimony (re: our assessment of her other issues).

She also indicated that she intends to provide the NRC with as much additional information as she is allowed to provide related to her civil suit. She indicated that she does not believe she can provide information produced under discovery (per judge's order), but that the judge's order does not preclude her from providing transcripts of depositions. She indicated that there were many "lies and untruths" stated during the civil suit.

I don't know if this would or should be relevant to the outcome of our discrimination review. While she did not say this specifically....it would appear that she would like us to review whatever she may provide related to her civil suit, and consider it within the context of our discrimination review. Just some food for thought.
