Ernie,

I agree, no problem, I'll get the secretaries to make the change and get back to you.

Deani,

Ol's one last look at the letter came up with one additional change, actually a deletion of the words in the very last sentence " [REDACTED] Investigations, by their very nature, are hard to anticipate when it comes to timing since we follow all logical leads. The sentence in question should therefore read: "Regardless, the NRC believes that the time taken to complete this investigation was necessary to ensure a thorough and independent investigation into the complex issues raised by the CI." Please send back for concurrence. That will do it. If you or Lisa have any questions, please call me at (610) 337-5243. Thanks

P.S. I left Lisa a voice mail to this effect.

Lisamarie Jarriel asked me to forward this letter to both of you for parallel concurrence. In an effort to keep this moving and meet our deadline of March 29th (Green ticket), please concur and send back to me.

Thanks in advance,

Deani
