Subject: Update on Notifications re: [REDACTED] TL

Lisa,

The Residents were kind enough to search the database for related Notifications (thanks, Dan O!). There were five (5). However, all were related to technical/repair aspects of the issue (none involved alleged inappropriate action by the [REDACTED]). I have placed a call into Sam Jones, the ECP manager. Since we know that an ECP review was done, it is possible that maybe the allegor was confusing issues raised via the corrective action process to issues raised to ECP. I intend to ask Sam how ECP was made aware of the issue (i.e., was ECP's review simply initiated at management's direction as we have heard to this point, or did ECP receive a bunch of concerns (from NEOs, maybe?), that ended up in a formal ECP review. More to come. TL
