**Subject: Notification of Change in NPDES Permit**

**Reference: Docket No. 70-143: SNM License 124**

Dear Sir:

In accordance with SNM-124, Condition S-23, Nuclear Fuel Services, Inc. (NFS) is providing notification of a change in permit limits to the state –issued National Pollutant Discharge Elimination System (NPDES) permit. NFS received the permit on July 5, 2006. The State of Tennessee Department of Environment and Conservation issued the permit on June 30 with an effective date of August 1, 2006. The only permit limit that changed was the nitrate plus nitrate nitrogen limit that changed from 558 lbs/day (maximum amount) to 420 lbs/day (maximum amount). NFS has incorporated the change into the appropriate operating procedures.

If you or your staff have any questions, require additional information, or wish to discuss this matter further, please contact me or Ms. Janice Greene, Environmental Safety Manager, at 423-743-1730. Please reference our unique document identification number (21G-06-0132) in any correspondence concerning this letter.

Sincerely,

**NUCLEAR FUEL SERVICES, INC.**
