Subject: Request for addl. info re: your statement last night

Kymn,

Thanks for your comments last night. I re-read through your typed statement today and went over my notes and would like to get some clarification from you on one item, when you get a chance. Specifically, you stated that...."There is irrefutable evidence that the "production-over-safety" line has been crossed by the senior officers of this company. And that mistruths have been told. (Here at this meeting)" I would like to know if you were speaking about the comments made by [REDACTED] or if there are other examples that you have that haven't been provided to the NRC as yet. Please get back to me when you get an opportunity. Thanks again. 7C
