Thank you,

 John Russo

Curriculum Vitae
William Carroll

1976-1978 Picker Corp

Nuclear and Ultrasound Operations

Nuclear Medicine Systems Final Test Engineer. In that capacity handled radioactive sources as part of final testing of Nuclear Medicine Imaging Systems.

1978 Baird Corporation, Nuclear Medicine Division. Field Service Engineer responsible for servicing nuclear medicine equipment throughout the Northeastern United States and Eastern Canada.

1978-1982 Picker International

Engineer in Sustaining Engineering Group Design of Gamma Camera Detectors. As part of this group was trained in all aspects of radioactive materials handling, including the measurement of activity, calibration of radioactive measurement equipment, and proper techniques for handling of radiation spills. This training was conducted in hourly sessions one hour per week for four weeks every 6 months during 1980 and 1981. This program was led by Joseph Barbieri at the Picker International Northford, CT facility.

1982-1986 Medi Ray Electronics, NY Field Service Engineer. Service Nuclear Medicine in Long Island, NY, and Westchester County.

1986-1989 JIL Electronics, NY Field Service Engineer. Service Nuclear Medicine Equipment in Greater NY area.

1989-Present Eclipse Systems, Inc. As President/CEO has ultimate responsibility to maintain log of sealed sources and monitor them as part of sealed source requirements for the State of Connecticut. Also review and track exposure histories of all company personnel.

During my career I have used the following radioactive materials amongst others. Tc99m, Co57, I123, I125, Ga67, Tl201, Ba133, Cs137.
