Hi Anne,

[Handwritten mark]
I have attached the review of the minutes from the Board of Director Meetings. Unfortunately, the minutes are just brief notes and don't really discuss the content of the meetings. Thus there is no mention of corporate pressure nor production over safety. But I guess that could be considered a good thing because it means your branch does not need to make any changes to that status letter they are working on.

Have a good weekend!

Hi Scott,

I just walked by your office and you weren't there, so I'm emailing the review because I know you needed it at the end of the day today. I do have hard copy with just the production over safety questions highlighted. So if you want that, I can give it to you in the morning. Again, let me know if you want me to make any changes to it.

Thanks,
Vickie
