Subject: Dr. K's discussion w/NJ

- SENSITIVE ALLEGATION INFORMATION -  
- PROTECT ACCORDNGLY -

Jill Lipoti called me late last Friday afternoon. She indicated that she and Kent Tosch has just finished speaking with Dr. K about RI-2004-A-0062 (metal filings in HC EDG lube oil or jacket water system). Not only did Ms. Lipoti confirm that Dr. K had provided this information to them (NJ did not divulge the identity of the initiator when they initially relayed the information to the NRC), but she indicated who provided the issue to Dr. K. (it was [REDACTED] both of which refer to the issue re: [REDACTED]) *7C*

Jill indicated that Dr. K told her about [REDACTED] and his claim that PSEG may have fed the NRC bogus information on the follow up of the [REDACTED] *7C*

Jill indicated that NJ wanted to be kept abreast of where the NRC is with this issue, as we are doing with RI-2004-A-0062. I was in a very awkward situation because I was having difficulty figuring out whose identity I should be protecting while I was speaking with her. I did not acknowledge the [REDACTED] had come to us previously, but I asked Jill if the the person who relayed to the issue to Dr. K to relay to them was concerned about the NRC providing feedback on their issue to NJ. Jill indicated that Dr. K told her that the individual [REDACTED] told Dr. K that is was OK (confusing isn't it!).

Just thought you folks shoudl know what's going on.
