SUMMARY

Discussed amendment No. 52 and letter dated March 16, 2005 requesting that several physicians be approved for authorization on the license. I discussed that the letter requested the physicians to be approved for 10 CFR 35.100 and 35.200. However, I believed that we had a conversation to request that their authorization include the use of material in 35.500. Mr. Pothiwala indicated that he recalled (vague) the telephone conversation and indicated that he did want the two authorized users to be approved for the use of sealed material in 35.500. He indicated that both doctors have been using the material in 35.500 since they were approved.
