SUBJECT: AUGUST 4, 2006, TELEPHONE CONFERENCE SUMMARY:
ELECTRICAL AND INSTRUMENTATION & CONTROL

On August 4, 2006, the U.S. Nuclear Regulatory Commission (NRC) staff participated in a telephone conference with staff from USEC Inc. (USEC) to discuss electrical and instrumentation & control issues related to its application for a gas centrifuge uranium enrichment facility proposed to be constructed and operated in Piketon, Ohio. I am attaching the telephone conference summary and the referenced correspondence for your use.

Enclosure 2 contains Official Use Only information.

Enclosures:

1. NRC/USEC Telephone Conference Summary - Clarifying Information on Electrical and Instrumentation & Control
2. NRC Correspondence - August 3, 2006

**USEC/NRC Telephone Conference Summary -
Clarifying Information on Electrical and Instrumentation & Control**

Date: August 4, 2006

Call Participants:	NRC:	USEC:
	B. Smith	D. Couser
	D. Morey	J. Bednarczyk
	F. Burrows	D. Godfrey
	R. Shaffer	R. Craycraft
	M. Bupp	G. Pyzik
	J. Downs	G. Corzine

On August 4, 2006, the U.S. Nuclear Regulatory Commission (NRC) staff participated in a teleconference call with USEC Inc. (USEC) to discuss additional information requested by the NRC staff concerning electrical and instrumentation & control (E, I&C) portions of the USEC American Centrifuge Plant (ACP) license application (LA).

The focus of the teleconference was a request from NRC staff to add clarifying language to the ACP LA. On August 3, 2006, the NRC provided USEC seven comments related to E, I&C (see Enclosure 2). The teleconference was requested to discuss any clarifications that were needed.

During the call, it was determined that USEC would add additional language in Sections 1.4, 2.6.7, and/or 2.6.10 of the LA to satisfy comments #1, 2, 3, 5, 6, and 7. USEC will accomplish this through various page revisions to the LA. Some of the language to be added was slightly modified from that found in Enclosure 2. It was agreed that comment #4 should be disregarded since it was covered in a previously accepted code. For comment #7, USEC stated they would follow option 1. As the call ended, the NRC staff noted these modifications would conclude the review of the E, I&C portions of the LA.
