Health Physicist

Security and Industrial Branch

Br. 3

Subject: Amendment to License No. : 45-19703-01

03019126

Ms. Janda,

I am requesting an amendment to the Schnabel Engineering Materials License regarding the addition of another office location, address 46020 Manekin Plaza, Suite 110, Sterling, Virginia 20166. This location will be utilized as an office and a permanent storage facility for our Nuclear Gauges currently being stored at 751 Miller Drive, S.E. Suite C1 Leesburg, Virginia 20175. Upon issuance of the new amendment (21), we will continue the amendment process of omitting the Leesburg office address from our license by submitting to you, another letter requesting this action and supplementing the required leak tests for such devices. Please see the attached sketch of the new address, as it relates to the actual storage location of the gauges within the office. An expeditious review of the items stated above would be greatly appreciated.

Regards,

A handwritten signature in black ink, appearing to read "Jackie C. Riggs, Jr.", is written over the typed name.
