Dear Steve,

Please go to:

<http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v4/>

and print out a copy of Appendix A and Appendix B.

Appendix A: complete boxes 1 thru 4 and have a manager sign.
Appendix B: complete the 7 pages - mostly it requires checkmarks.

If you don't know the sealed source model numbers - just give me the gauge models and I will fill in the sealed sources.

Also - somewhere on Appendix B - indicate that you possess 4 gauges that have a maximum activity of 100 millicuries each (PLEASE Double check this before sending in). We are now required to list possession limits and want to make sure we give you what you need.

Also indicate that you have had hands-on training that included leak tests and shutter checks. Confirm that you are familiar with the Operating procedures, Emergency procedures, routine maintenance and lock-out procedures. You can write this on Appendix B in the white space.

Send all correspondence to:

Thanks for your cooperation.
